

A person is shown from the back, wearing a dark long-sleeved shirt with the word "Interface" printed in red on the back. They are wearing a tool belt and holding a large, textured carpet sample. The background is a solid red color.

# Your flooring project. Taken care of.

Supply and Fit, from Interface.

**Interface**<sup>®</sup>

# Want Interface flooring? We can fit it for you, too.

## The name says it all: Supply and Fit.

You choose from our huge range of carpet tiles and LVT (Luxury Vinyl Tiles). Our experienced installation teams fit it for you.

Wherever you are in the UK, no matter how many locations you have, you're in very safe hands.

We even take your old carpet away, and reuse or recycle it.

Interface®

# Interface every step of the way.

## Choosing the right flooring for your project

Whatever the size, shape and purpose of the space – or spaces – you're working with, we have the ideal flooring. Flooring that performs as you need it to, and looks as you want it to.

Whether it's modular carpet or LVT, you have an enormous choice of styles, colours and textures. All made to last, and all designed to enhance your indoor surroundings while helping protect the wider environment. And we're adding new collections all the time. Giving you more design choice. More inspiration.

# Dealing with your old carpet, responsibly.

Before we fit your new flooring, you'll probably have some old carpet to remove. This is all part of the service – we call it ReEntry.

It saves you a lot of hassle. But much more than that, it diverts your old carpet from landfill – in one of four ways. If it's still in fair condition, we pass it to social enterprises, who reuse it in homes or community spaces. If that's not appropriate, we convert the carpet into other products, or recycle it into new carpet. Or, if the carpet can't be reused, converted or recycled, we send it to a waste-to-energy facility.

So, whatever happens, you're putting your old carpet to good use. You're helping local communities, the environment, or both. It's all part of your organisation's corporate responsibility, and you even get a certificate to confirm your contribution.

# Fitting your new flooring, expertly and efficiently.

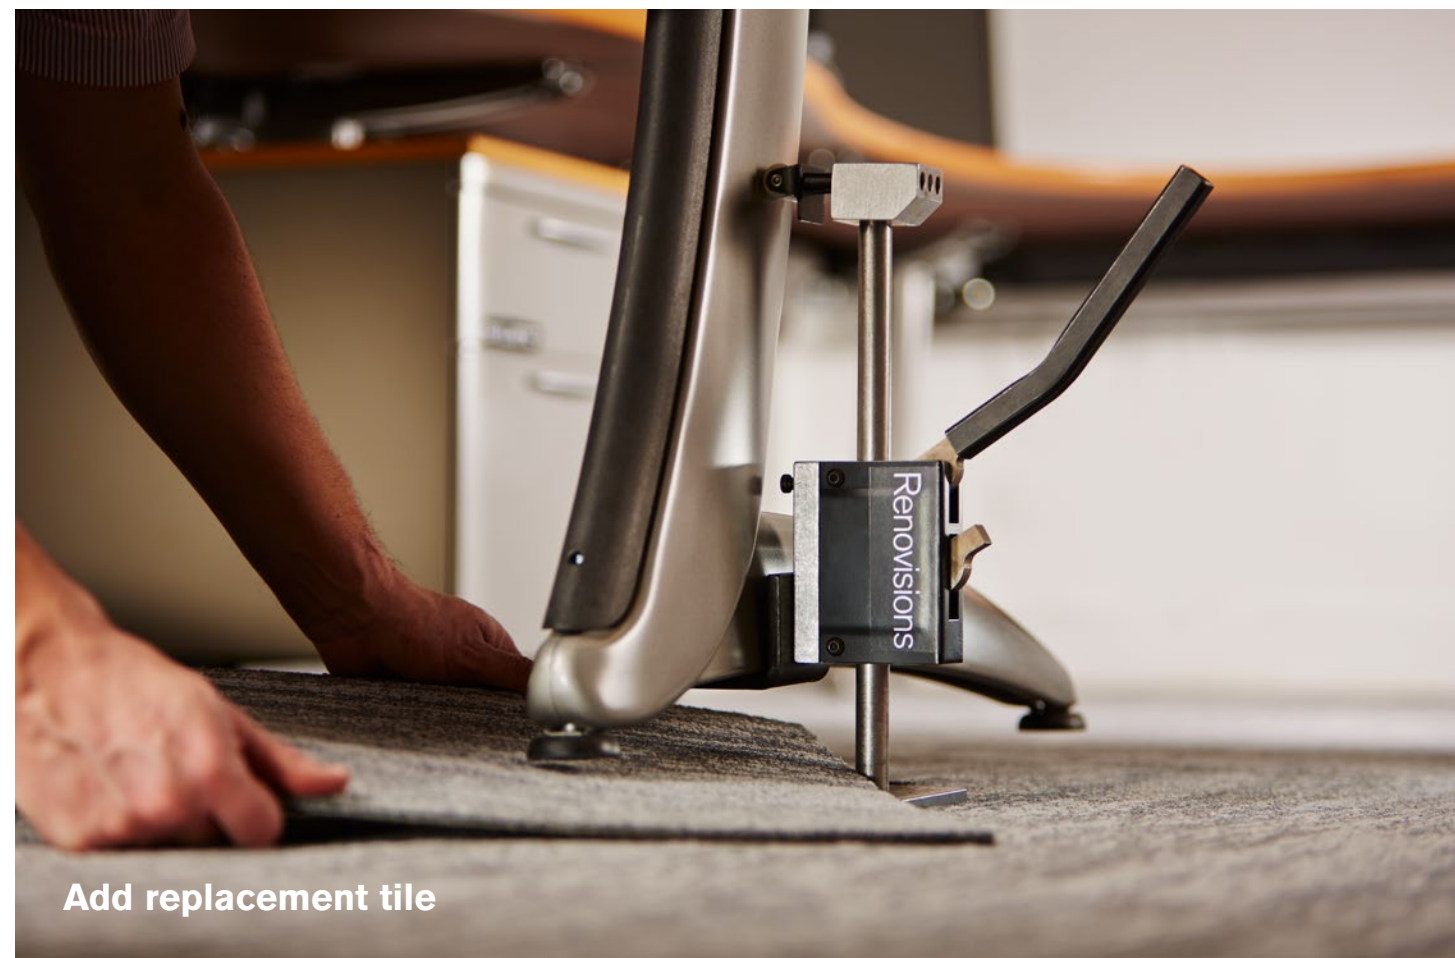

Installing flooring in a workplace is a sensitive process. It needs to be quick, clean, and with minimum disruption. We understand this fully. We've built our Supply and Fit service around maintaining business as usual.

Even if your space contains a lot of furniture, we can fit your flooring without needing to move or dismantle it. Our Renovisions® jacking system lifts workstations, filing cabinets and other office furniture while we fit the flooring. So everything stays in place, with any wiring still connected. You can even leave the contents of drawers, desks and cupboards.

If you need to eliminate downtime altogether, we can fit your flooring outside working hours. Your staff leave in the evening, and return the next day to a brand new floor – and not a thing out of place.

Lift furniture & remove tile

Add replacement tile

# National coverage for multi-site installations.

Interface Supply and Fit works in exactly the same way all over the UK. We operate nationally, so you can expect excellent service in any location – and at multiple sites. No matter how complex your flooring project is, we look after everything, and you deal with just a single point of contact.

# A service that works.

## We know it, and they do...

We have worked with a range of clients, from SME's to global blue chip companies.

They are very happy with our service.

“

I just wanted to say a massive thank you for the excellent job done fitting the new carpets. The fitters worked brilliantly, were absolutely no bother at all and we have had positive feedback.

**Allie Brown, Facilities Manager  
Central Government Sector**

“

Just a quick note of sincere thanks for managing the whole carpet tiles installation process for us. We are thoroughly enjoying the new office spaces; the floor covering is making such a difference and so pleasing to the eye also!

**Stephanie Christian, Finance Director,  
Good Creative**

“

The team organised the project with great attention to detail and gave us the confidence that you can re-carpet a busy office environment with no disruption. As a Law Firm we tend to be quite paper heavy, and I can report not one single sheet of paper was left out of place.

**Jason Sillett, Facilities Manager,  
Bristows LLP**
